

International Expertise

“We have the experience and expertise to take your project from exploration to mining”

CSA Global is a leading geological, mining and management consultancy providing innovative and practical solutions for clients in the global resources industry. Our company has more than 25 years of international experience in the exploration and mining industry encompassing most commodities, with offices located in Perth, Jakarta, London, Darwin and Brisbane.

Exploration & Evaluation

- Targeting Studies / Project Generation
- Program Planning & Management
- Project Review & Audit
- Quality Assurance & Quality Control
- Technical & Expert Reporting

Mining & Projects

- Mine Design & Scheduling
- Project & Operations Management
- Financial Modelling & Valuation
- Feasibility Studies
- Due Diligence

Data Management & Mapping

- Database Design & Management
- Data Validation & Audits
- Data Storage & Security
- GIS Services & Mapping
- Cartography & Design

Resources & Mine Geology

- Resource Modelling & Estimation
- Resource Audits & Code Compliance
- Mine Geology / Grade Control
- Corporate Advice, SWOT Analysis & Training
- Independent Reporting (NI43.101 & JORC)

Community Development & Sustainability

- Stakeholder Liaison
- Mining Heritage & Geotourism
- Landscape Interpretation
- Impact Assessment & Benchmarking
- Community Collaboration

CSA Global Selected Current International Projects

Africa	Project	Commodity	Work Completed
Democratic Republic of Congo	Kileba & Kipoi	Copper & Cobalt	Geological targeting studies, project review, resource estimation
Ghana	Wa-Lawra	Gold	Management services, targeting studies, data management and resource modelling
Guinea	Kalia	Iron Ore	On-site supervision of drilling program, resource estimation, and NI43.101 reporting
Tanzania	Mkuju River	Uranium	Contract services, geology support, resource estimation and reporting, scoping study and PFS, optimisation and mine design
Australasia	Project	Commodity	Work Completed
Australia	Salmon Gums	Lignite	Exploration management, geo-corporate advice and resource estimation
Thailand	Padaeng	Zinc	Exploration management, mining studies, geo-corporate advice
Australia	Kintyre	Uranium	Project review, geological and resource modelling
Australia	Magellan	Lead	Exploration management, resource estimation, feasibility studies and geo-corporate advice
Australia	Ridley	Magnetite / Iron Ore	Design, implementation and management of exploration and resource estimation for PFS (2Bt resource)
China	Caijiaying	Zinc / Gold	Exploration through to feasibility development and mining
Indonesia	Solway	Nickel	Exploration planning, mining studies and expert advice
Vietnam	Co Dinh	Chromite	Geology, resource, geotechnical, hydrology, mining and tailings disposal components of FS.
Europe	Project	Commodity	Work Completed
Finland	Kevitysa	Nickel	Independent review and auditing of resource estimate
Sweden	Viscaria	Copper	GIS and drilling database, resource estimation, compilation of scoping study
Spain	La Zara	Copper / Gold	Resource estimation, mine design
Kosovo	Draznje	Zinc / Lead	NI43.101 resource report
Americas	Project	Commodity	Work Completed
Canada	Andrew Deposit	Zinc / Lead	Scoping study
Guatemala	Los Cuchumatanes	Zinc / Lead	Expert review
Brazil	Mirabella	Nickel	Independent expert reporting and resource audit
